

HAMPTON MEDICAL WEIGHT LOSS PROGRAM

MONTH 1 & 2: The first 2 months of the program are designed to determine if the patient can tolerate the medicines that aid in weight loss. If you are able to tolerate the medicines then we encourage you to sign up for quarterly billing. Monthly billing is no longer available in the program. We accept all major credit cards. •1st & 2nd month = \$700 total

After the 2nd Month: 900\$ per quarter (every 3 months). Monthly payments are no longer available.

- A 2% CC processing fee will be applied to all quarterly payments. (Doesn't apply to cash payments). The quarterly fee includes all medications. In addition, a personalized diet and exercise plan to meet your goals.
- We recommend staying in the above program for at least 9-12 months in order to maintain the weight loss and start an exercise program.

STEP DOWN PROGRAM with or without our meal replacement program (i.e. Cornerstone Wellness)

COST EFFECTIVE (OPTIONAL) PLAN AVAILABLE AFTER MONTH 6 IN PROGRAM

Interested in continuing our program but want to spend less?

We are offering a step down program to those interested in continuing the program for a discounted price of **\$90 per month or \$250 Quarterly payment (preferred)**. This plan includes the once daily pill (phentermine and topiramate) provided as a continuation of the program, and excludes the semaglutide (once weekly) shot. This can help patients continue to lose weight while not breaking the bank. AVAILABLE ONLY AFTER 6 MONTHS IN THE PROGRAM!

Also please take a look at our BRAND NEW meal replacement program called Cornerstone Wellness. We offer this program TO ANYONE who wants to start it.

The patient can cancel at any time and no further fees will be assessed. Any fees collected are non-refundable. This is because the majority of the costs of this program derive from medication costs.

WE DO NOT ACCEPT ANY INSURANCE IN THIS PROGRAM. We cannot get these medications approved with insurance because they do not want to pay for the cost. Please contact the office for further information.
